How to Operate

1. Multi-fuction key
2. Earphone indicator light
3. Microphone
4. Charging case indicator light
5. Type-C charging port

Charging

1. Please fully charge the earbuds and the charging case before first-time use.
2. Use the included USB Type-C charging cable.

Power On/Off

Power on: open the upper cover, take out the earphones, earphone automatically starts. Or when shuts down, long press 3s left/right multifunction button with “**power on**” tone.
Power off: put back to charging case and automatically turn off. Or when start up, long press 5s left/right multifunction button with “**power off**” tone.

Bluetooth Pairing

1. Open charging case, take out the earphone will start automatically; the left and right earphones are automatically connected, please keep the distance between the bluetooth earphone and the mobile phone (or other connected devices) within 50cm, the closer is better.
2. Open the mobile phone bluetooth interface to search “**PBL OpenLoop**”, click pairing, and the phone is successfully connected with “connect” tone

Factory reset	Tap 7 times on either buds to reset both buds at the same time	

Notes

Use firm and precise taps on the touch area of the earbuds. Multiple taps (double or triple) should be performed at a consistent speed so the earbuds can recognize the gesture.

Safety Precautions

1. Do not expose the earbuds to extreme temperatures.
2. Do not modify the product—it voids the warranty and may cause malfunction.
3. Do not immerse in water.
4. Clean with a mild antiseptic. Avoid alcohol-based disinfectants.
5. Keep connectors clean to maintain sound quality.
6. Set volume to minimum before use, then adjust gradually.
7. Stop using if you experience irritation, rash, or discomfort.
8. Avoid using the earbuds in situations requiring awareness of surroundings (e.g., driving or cycling).

Caution

- Replacing the charging case or earbuds with incompatible parts can disable safety features.
- Do not dispose of batteries in fire or expose to high heat.
- Avoid crushing or puncturing the battery.

- Storing in high temperatures may cause an explosion or leakage.
