Charging

Fully charge the device (can take up to 3 hours) before using for the first time. To charge your device, plug the charging cable into the power adapter or USB port on your Device.

When fully charged, press and hold the side button for 3 seconds to power on the watch.

App Download

Open the watch app download interface, use the scan function to download, or scan the QR code attached to download from the Play Store/App Store

**Connect**

Hi there, Thank you for choosing Pebble! You are now the proud owner of the Pebble Endure 2 Smartwatch. With this watch, you can do so much more — you truly have a universe on your wrist. The Pebble Endure 2 is a genuine, high-quality Pebble product that comes with a 1-year warranty.

Firmware Upgrade

The app will notify you of a new firmware version. Open the app interface and select Firmware Upgrade.

Features

Call Function : After connecting the smart watch to the phone, you can use the watch to make and answer phone calls via Bluetooth. You can also view your call history on the watch.

Messages : To utilize this function, it is necessary to pair your watch with the app on your mobile phone. This connection enables the watch to access and view third-party program messages through the message notification settings.

Sleep : If you wear the Smart Watch while sleeping, it can provide sleep duration and quality statistics.

NOTE: Sleep stats are reset to zero at 8:00 pm.

Heart Rate : When wearing the watch, it's best to position it above the wrist bone. From there, you can monitor your real-time heart rate. The normal range for the average person is 60-90 beats per minute.

To measure your heart rate, click "start" on the heart rate interface. After approximately 20-30 seconds, the measurement will be taken. The detection will automatically stop after 60 seconds, and the displayed value will be your heart rate at the time of detection.

Sports : You can monitor your exercise during various sports activities

Music Control : Slide up on the main interface to enter the main menu, and click Music Control. It includes switching to the previous song/pause or play/ switching to the next song. You can click based on your own needs.

**Safety Instructions**

1. Although the Smartwatch can detect the real-time dynamic heart rate, it cannot be used for any medical purpose.
2. Do not place the equipment and its accessories in the area with too high or too low temperature, otherwise it may cause equipment failure, fire or explosion.
3. Avoid strong impact or vibration on the product to avoid damaging the equipment and its accessories and causing equipment failure.
4. Do not disassemble or modify the equipment and accessories without authorization. In case of equipment failure, please contact after-sales service.
5. If the equipment is not used for a long time, be sure to make up the power every three months.
